<i>Part Time:</i>	\$806.00	\$35.00	\$15.00 per course	

Notes:

1. **Health and Dental Insurance:** In 2005/2006 students voted to implement a new health and dental plan. This begins in September 2006. All full-time students at NSAC are automatically enrolled in the Student Health and Dental plans when they register for classes. The premium for each plan is an annual one (12 months) with Health Insurance = \$125 per year and Dental Insurance = \$135 per year; Total = \$260/year. Therefore, the process for opting out must be done prior to the specified deadline. The deadline each year coincides with NSAC's last date to register for a course. More information regarding your Student Health and Dental plans can be found at www.gallivan.ca or by visiting the on-site Student Benefits Plan Office, opening in Fall 2006. Students starting in January will be charged the full Dental Fee but a pro-rated Health fee of \$84. At this time, students starting in May do not have the option of purchasing health/dental insurance until the following September.

2. **International Differential Fees:** International students pay tuition fees that include the basic tuition fee of \$2,418 plus a differential fee of \$1,730 per term.

Continuing Fees

Fall Term
